EXECUTIVE SUMMARY

Professional Software Engineer with experience delivering scalable, high-performance applications across web, mobile, and intelligent systems. Skilled in designing robust architectures, developing seamless user experiences, and implementing efficient, data-driven solutions. Adept in end-to-end development, automation, cloud deployment, and maintaining clean, reliable code within Agile teams. Committed to building secure, user-centric products that adapt to evolving technological needs.

EDUCATION

B.E Computer Science and Engineering Prathyusha Engineering College 8.1/10 CGPA	2022 – 2026 Tiruvallur, India
HSC Shree Niketan Hr Secondary School 87%	2021 – 2022 Tiruvallur, India
SSLC Sri Sathya Sai Matric Hr Secondary School 94%	2019 – 2020 Tiruvallur, India

SKILLS

Android App Development: Dart(Flutter), Supabase, Firebase	Full Stack Development: MERN Stack, Typescript, Tailwind CSS, Rust, Fast API, Prisma, PostgreSQL	Cloud Technologies: Google Cloud Provider(GCP), AWS
Productivity & Tools: Git & GitHub , Docker ,Vercel ,Figma , VS Code	Automation Tools: N8N, Zapier, SIM	Programming Languages: Python , C

PROJECTS

- SyncBeats – Multi-User Real-Time Music Listening App**
Built a cross-platform mobile application enabling two or more users from different locations to listen to the same music in perfect sync. Implemented real-time audio sync, session rooms, live presence indicators, and a seamless UI. Integrated Firebase/Supabase for authentication, cloud sync, and low-latency communication.
- Employee Management System – Full Stack Web Application**
Developed an enterprise-grade employee management platform for software companies with modules for employee profiles, payroll, leave tracking, project assignments, and role-based access control. Designed REST APIs, dashboards, admin controls, activity logs, and secure authentication.
- Smart Resume Analyzer & JD-Based Resume Enhancer**
Built an AI system that analyzes resumes, extracts skills, compares them to a job description, and generates an improved ATS-friendly version with recommendations. Integrated RAG architecture, NLP models, cloud-based document processing, and automated scoring.
- SecureVault – Password Manager + To-Do + Automation-Based Productivity Suite**
Created a unified productivity suite combining password management, task management, notes, and automated alerts. Integrated cross-platform mobile app + web dashboard, cloud sync, encrypted password storage, and automation workflows for reminders, email/SMS notifications, and user-defined triggers.

PROFESSIONAL EXPERIENCE

- Google Developer Groups on Campus(Technical Lead & Co-Organizer) :** Led technical initiatives, organized developer events, and mentored peers to strengthen community engagement.
- Google Cloud Arcade-Facilitator :** Guided students through structured cloud learning pathways and supported hands-on skill development.
- Unstop(Campus Ambassador) :** Represented the platform on campus and drove active student participation.
- Cloud & Full Stack Lead :** Directed development and cloud integration efforts, mentoring teams and ensuring scalable, high-quality solutions.
- Speaker :** Delivered talks at 50+ tech events, sharing insights on development and emerging technologies to inspire and educate the community.

INTERNSHIPS

Software Engineer Intern- **Hacker Rank**
(19-01-25 to 19-02-25)
Full Stack Intern- **Learn Crop**
(15-06-25 to 15-07-25)
Associate Ai Product Developer Intern- **PI Academy Australia**
(01-09-25 to **Present**)

CERTIFICATES

Front End Development- **Great Learning**
Cloud Engineer - **Unstop,GCP**
Cloud Essentials - **AWS**
Plan and Prepare to Develop AI Solutions on Azure- **Azure**
UI/UX Designer - **Great Learning**
MMS DB Series - **ScyllaDB**
Full Stack Developer - **Forage**
